Video Indexer Setup

Version 1.0.0

Contents

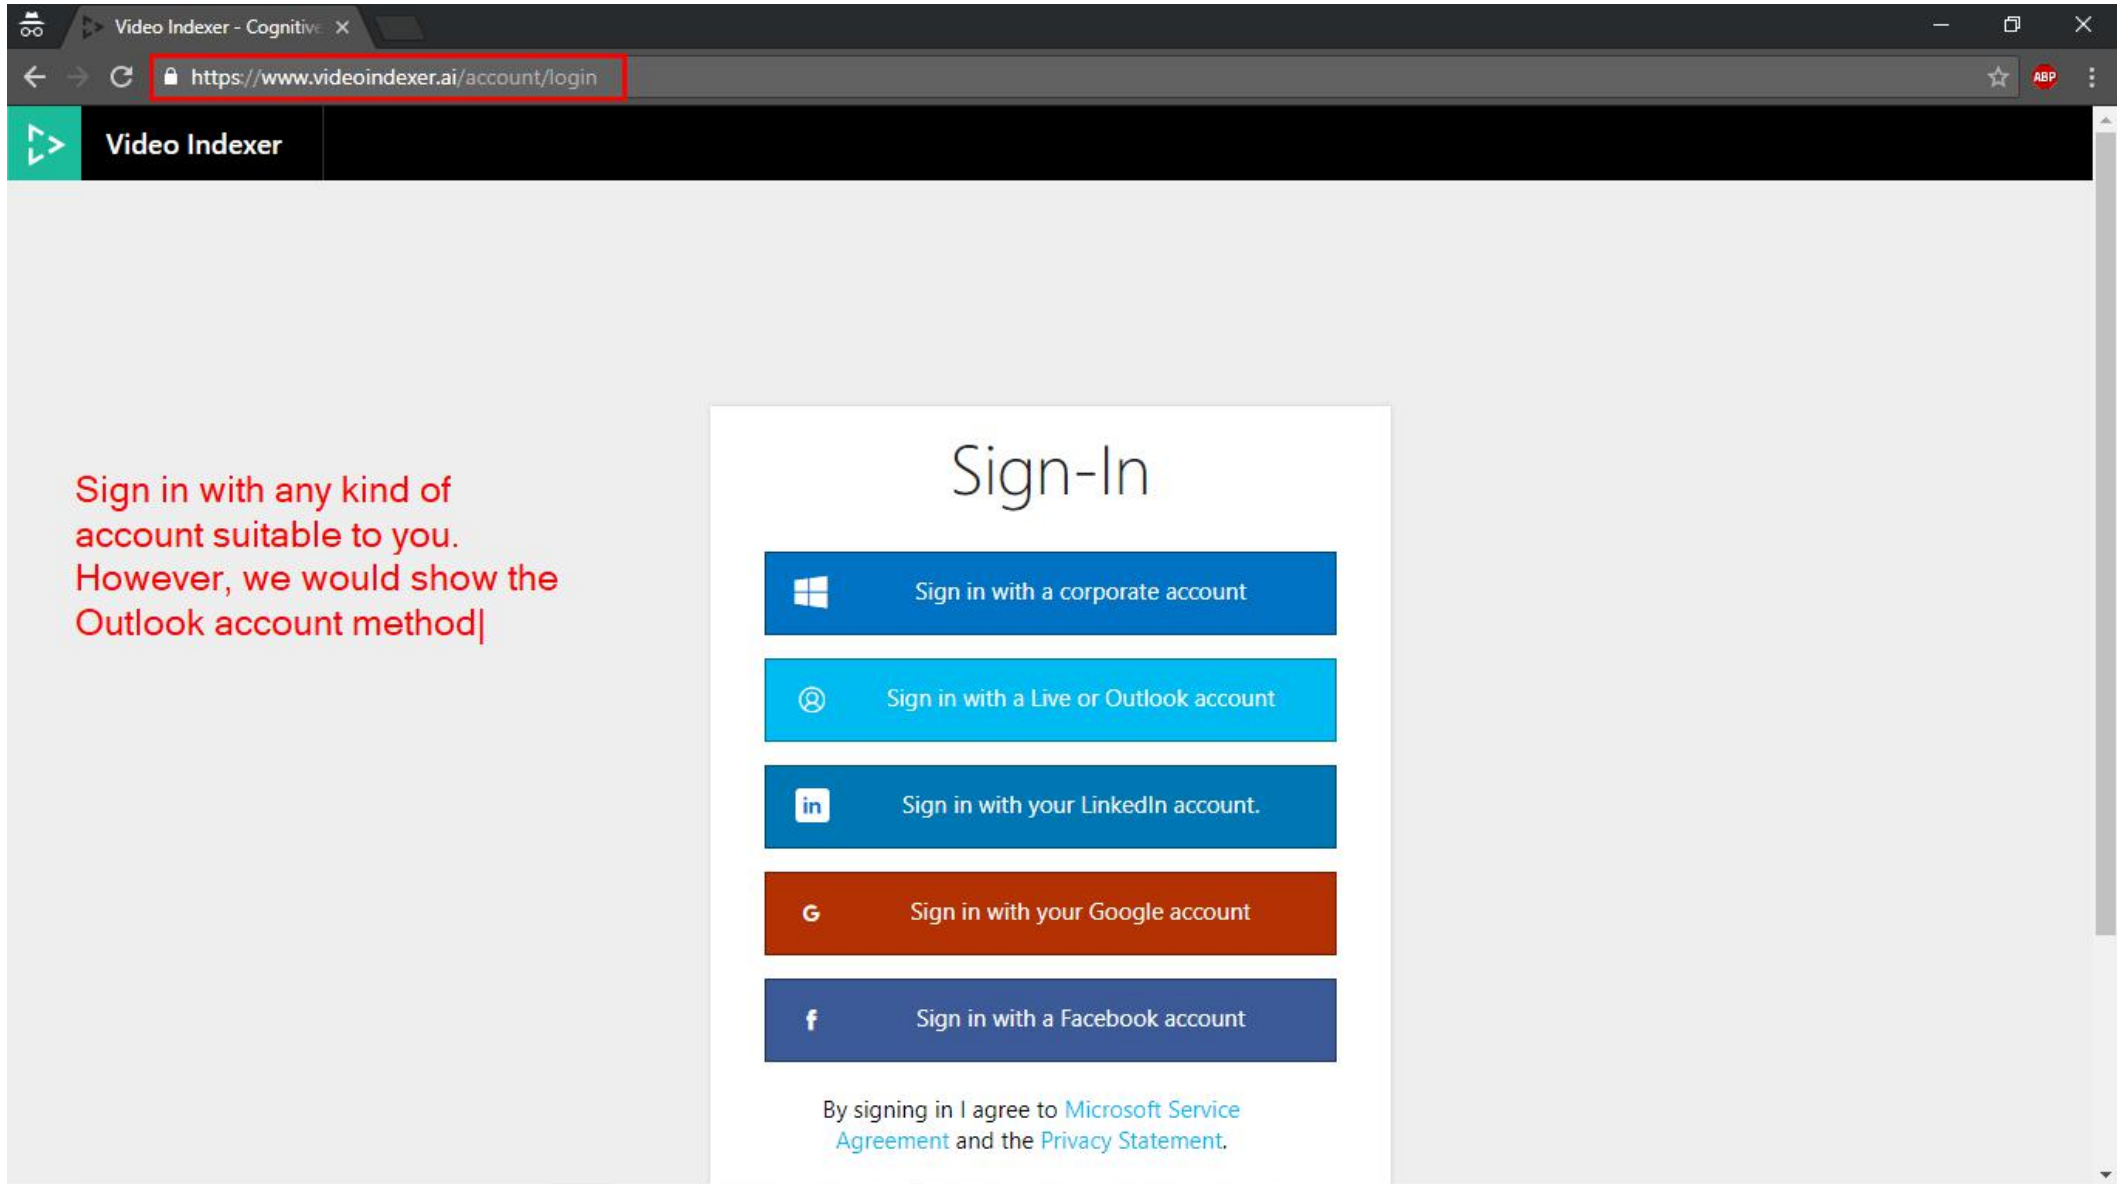

- Setting up Video Indexer

About this Document

- This document will help the users to create and setup Microsoft's VideoIndexer service to use it with Security and Surveillance solution.

Note : Please complete the steps mentioned in this document prior to deployment of ARM templates.

Setting up Video Indexer

The screenshot shows a web browser window with the address bar containing `https://www.videoindexer.ai/account/login`, which is highlighted with a red rectangle. The page header features the "Video Indexer" logo and name. The main content area is a "Sign-In" page with five buttons for different login methods: "Sign in with a corporate account" (Windows logo), "Sign in with a Live or Outlook account" (Outlook logo), "Sign in with your LinkedIn account." (LinkedIn logo), "Sign in with your Google account" (Google logo), and "Sign in with a Facebook account" (Facebook logo). Below these buttons, a text line states: "By signing in I agree to [Microsoft Service Agreement](#) and the [Privacy Statement](#)."

Sign in with any kind of account suitable to you. However, we would show the Outlook account method]

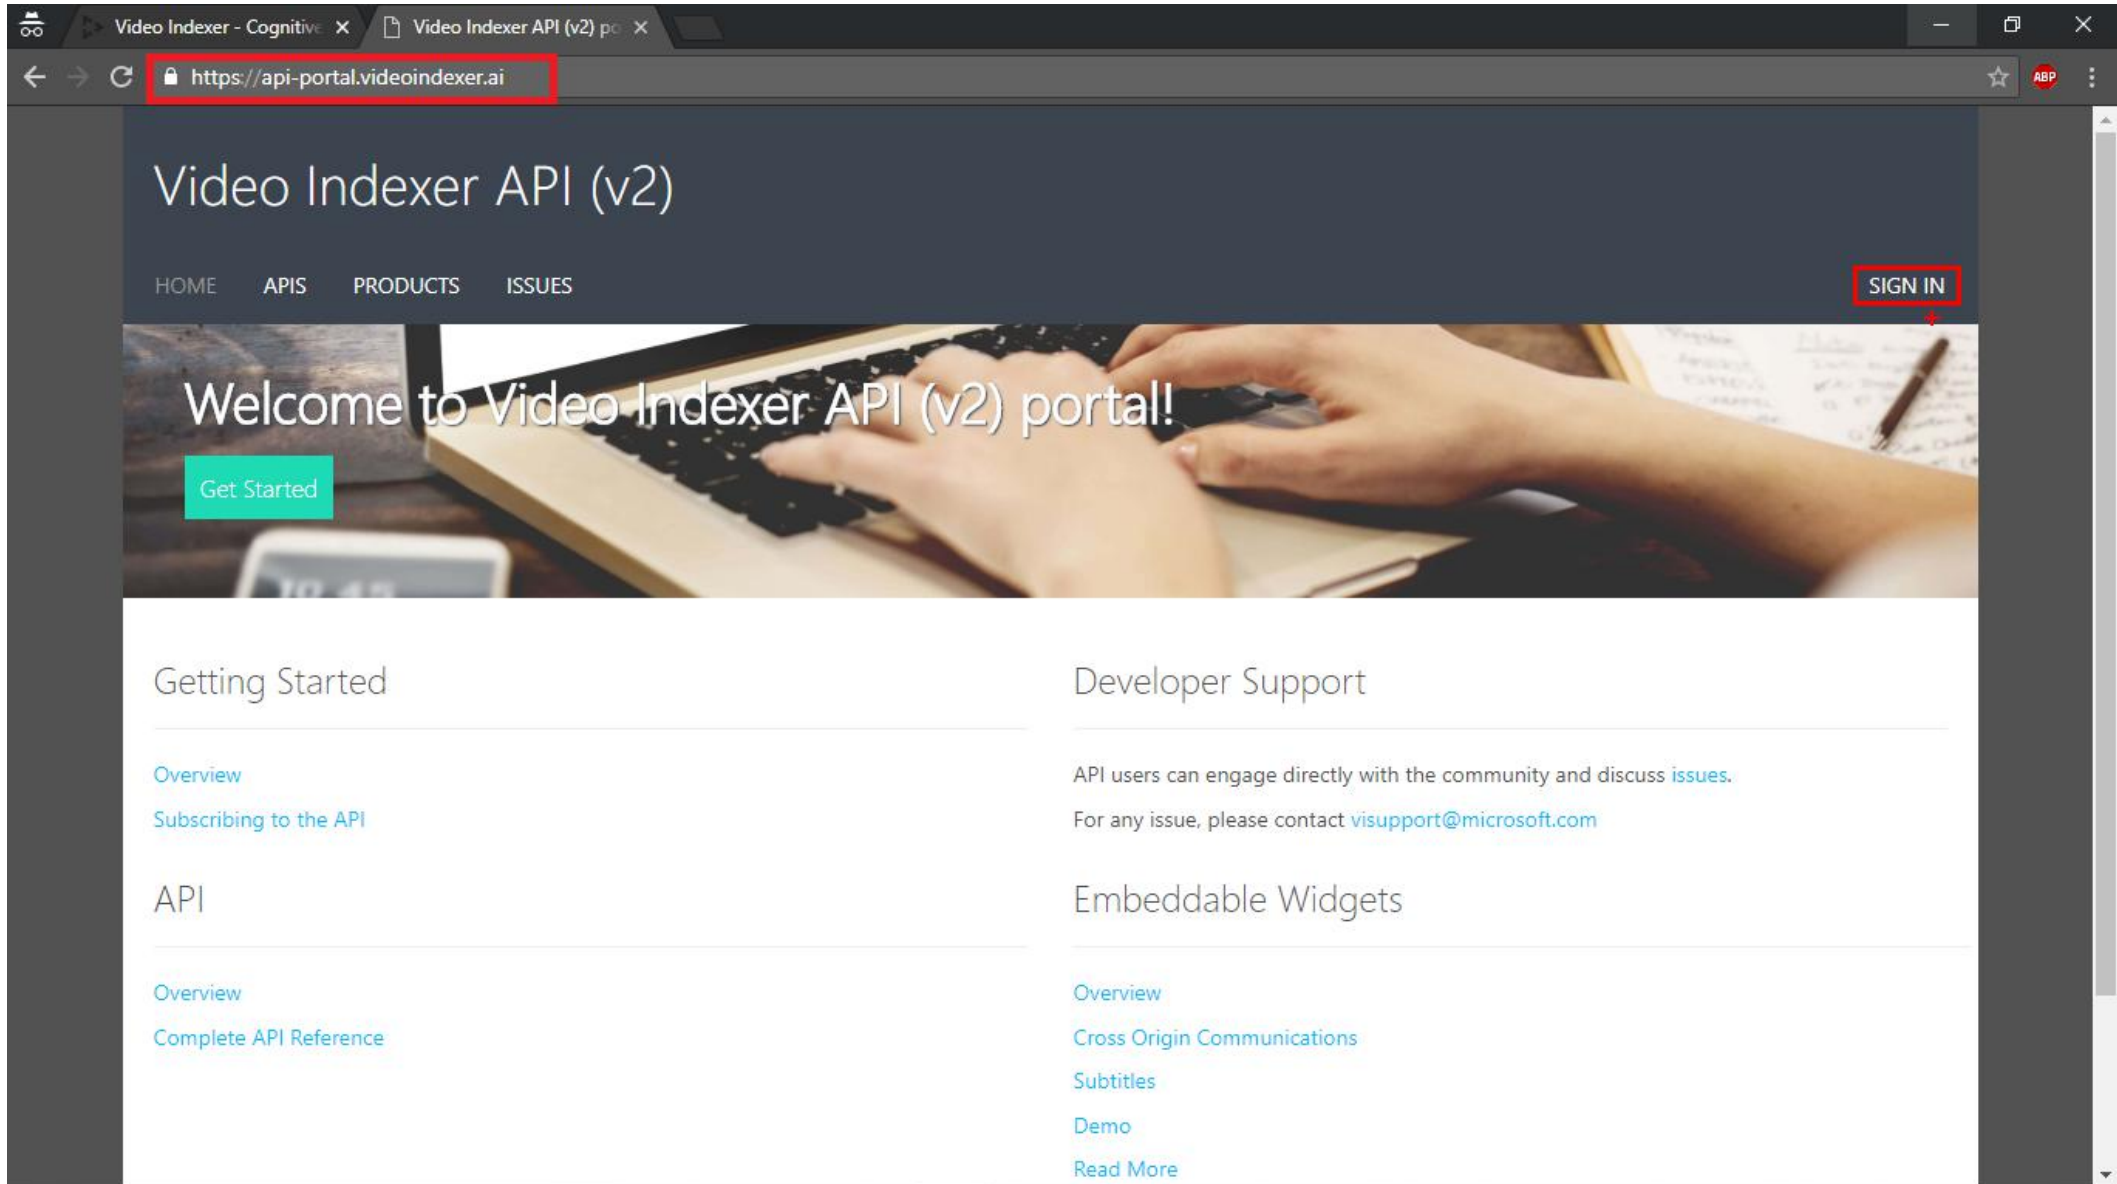

Sign-In

- Sign in with a corporate account
- Sign in with a Live or Outlook account
- Sign in with your LinkedIn account.
- Sign in with your Google account
- Sign in with a Facebook account

By signing in I agree to [Microsoft Service Agreement](#) and the [Privacy Statement](#).

HOME APIS PRODUCTS ISSUES SIGN IN

Sign in

Sign in with:

- Azure Active Directory
- Google
- Microsoft**

Important notes:

1. You must use the same provider you used when you signed up to the Video Indexer website
2. Before AAD users from a domain can sign in, the AAD global admin for that domain must grant permission through [here](#)
3. Personal Google and Microsoft (outlook/live) accounts can only be used for trial accounts. Accounts connected to Azure require AAD.
